

Subject Areas

The Research Grants Program provides support for research projects in the following field: Agriculture, Basic and Applied Sciences, Engineering, Administrative Sciences, Arts.

Applications

Applications should be submitted in English on a special Performa “*Research Grant Application*” (RGA-1) by mail, registered post in person and/ or electronic mail, designed for this purpose. There is no deadline for submission of the application.

Project Evaluation

Each project is evaluated by referee(s). The comments of the referee(s) made on proposal are referred back to P.I for necessary action.

Project Approval

The successful project is approved by the competent authority on the recommendations of the Research Committee. The P.I. is informed to proceed for the initiation of the project as soon as final approval is granted by the competent authority.

Agreement

A written agreement is made between the P.I., the grantee and this University on a prescribed Performa “RGA-2”. The P.I undertakes to administer the grant according to the agreement and to provide laboratory space, salaries and other facilities necessary for the project. Equipment, material and literature provided for the project through the Research Grant remain the property of the institute department after the project is completed.

The grantee is required to submit a Final Technical and Financial proper on a special Performa (RGA-3” after the completion of the project as per university Research Rules. The grantee must keep the committee properly informed about such matters, as well as of any applications of the results obtained. Any research result obtained under this Research Grant must be made freely available without restrictions.
