

Business Incubation Center (UAJK)

Introduction: Business Incubation Center (UJAK) was established in July 2015 with the support of HEC and the University of AJK. BIC is a business support process that accelerates the successful development of startup and fledging companies by providing entrepreneurs with an array of target resources and services. The main purpose of incubation center is to spin out companies from the universities and empowering our students through entrepreneurship.

BIC helps early-stage businesses develop into financially stable companies by providing the tools, trainings and infrastructure that help facilitate smarter, faster startup growth.

We provide students with internship or part time job opportunities, real world examples for case studies or class projects, opportunity to apply their knowledge to real business problems, an introduction to entrepreneurship early in their profession careers.

Events organized by BIC

Our comprehensive process includes on-going series of activities and tactical involvements of students, a variety of business development services, business coaching and other important unique resources that are all individually tailored to help emerging enterprises achieve their specific short-term and long-term goals. Following are the events that were organized by BIC in collaboration with different companies and universities:

- Ideation Workshop for Pakistan Startup Cup 2022
- 5th annual entrepreneurship conference by Entrepreneurship Development institute.
- Workshop held in collaboration with Pakistan stock exchange
- Painting and Photography competition in collaboration with SCO
- New Venture creation with LUMS
- Job Fair 2018
- Break the Shackles workshop 2018
- Startup competition 2018
- Art and design workshop 2018
- Effectuation theory of entrepreneurship by IBA
- Entrepreneurship case studies by IBA
- Business modeling canvas by IBA
- Startup competition 2017
- Entrepreneurship: A mind set game workshop 2017
- Startup competition 2016

Alliances / Collaborations:

BIC at UAJK in its very early stages, have pooled resources with well-known and prestigious institutions of Pakistan. Some of which are:

- PITB: The Collaboration between the Punjab Information Technology Board for National Expansion Plan of NIC's.
- PIFD Lahore: The collaboration was made for the students of Art and Design to help them grow in their respective fields. PIFD Lahore has organized many workshops through BIC for the students of UAJK on the campus.
- Plan9: Punjab information and technology board's incubator PLAN9 cooperated with BIC for the students of fields related to computer to help them with up-to-date knowledge of Computer sciences and software for students of UAJK to build their own startups.
- State Bank of Pakistan: BIC at UAJK joined forces with State Bank of Pakistan for the financial management workshops.

NATIONAL EXPANSION PLAN OF NICS IN COLLABORATION WITH BIC- UAJK

A NETWORK OF TECHNOLOGY INCUBATORS IN PAKISTAN

The National Expansion Plan of NICs initiative is aimed at encouraging innovation and entrepreneurship in the local communities of Pakistan. National Expansion will be financed by Ministry of Information Technology (MOIT) and executing body will be Punjab Information Technology Board (PITB).

Pallove

BRIEF

The Pallove will be a platform for peer-to-peer clothing rental services, which means the clothes are from people's personal wardrobes. Pallove will also be a platform to bring other clothes rental services providers to one platform. The platform gives renters and renters a personalized and safe place to both make money and feel good without breaking the bank and planet.

IMPACT

The service they are providing is effective and affordable for the general public. Costly clothes can be utilized and money can be saved along with this many people can be a part of this platform and create jobs for others.

PROGRESS

After the first month they have started working on their website. The roles were clearly defined to the members so that they can work accordingly.

They plan to register with SECP. A business development was held with the startup to check the status, the tasks assigned to them previously were completed but there were few details mentioned. The business development team gave an overview of different components of the health check form that helped their startup in understanding the basic concepts. Moreover, there were some legal questions in their mind so we arranged a legal session for them.

Currently, they're working on their social media pages, USP and SWOT Analysis so that they can have a grip on what's happening in the startup.

BRIEF

Online Quran Academy based in Muzaffarabad AJK is providing Online teachings of Quran to the people of faraway area who are unable to get Knowledge of Islam and Quran. We are going to establish our own teaching academy online and an App so that everyone can have an easy access to our services.

IMPACT

Designing a digital tutor in a form of a website, which will help the public in future educational or learning path. Teaching of Quran is a must for every Muslim around the globe but due to the busy routine people now a days don't have time for reading and learning Quran. By providing customized slots of teaching many can be a part of it whenever they feel easy.

PROGRESS

Online Quran has started generating revenue their online clientage in increasing day by day and currently they are taking online classes in three shifts.

They are planning to register with SECP. Under the supervision of Business Development, the startup has been working on improving its pitch, logo has been completed.

Goals of the company has also been defined.

A business development meeting (startup health check) was held with the startup to check the status, highlighted the shortcomings of the startup, and recommended them to complete the milestones that were either partially complete or incomplete. The business development team gave an overview of different components of the health check form that helped their startup in understanding the basic concepts. Quick Reaction Medical Force

BRIEF

Quick reaction medical force (QRMF). It is a business idea in which we will provide medical services in a new and unique way, never introduced before. On call emergency care *Emergency Ambulance service *Patient shifting service *Online and home check-up service for bedridden patients. We will also have a website on which the patient can book the appointment with doctor online or home based medical checkup.

IMPACT

Their goal is to provide emergency service in Muzaffarabad where you can easily book and appointment or contact in case of emergency. They will reach at your door step.

PROGRESS

QRMF team is competitive and focused on its goals. According to the founder, they have already created a basic website. However, they have not started earning any revenue yet. The team wants to add more functionalities in the product and is working on its development.

Detailed Business Development meetings were held with the startup, and they were provided guidance on improving their business model, completing the required documentation, and ensuring regular attendance to the incubation center. The startup is working on the development of their application and the expense sheet for its development and marketing plan. Overall, the startup has shown a satisfactory performance in the assigned BD activities.

REVENUE GENERATION

PROGRESS

Foodomon over all work progress has improved rapidly. They have developed a website and app currently they have started taking online orders as well.

The team wants to add more functionalities in the product and is working on its development. They want to add more products other than food and want to expand in other cities in coming months as well.

They are also planning to register with SECP. Detailed Business Development meetings were held with the startup, and they were provided guidance on improving their business model, completing the required documentation, and ensuring regular attendance to the incubation center. The startup is working on the development of their application and the expense sheet for its development and marketing plan. Overall, the startup has shown a satisfactory performance in the assigned BD activities.

EVENTS | BIC UAJK

Ideation Workshop for Pakistan Startup Cup 2022

Ideation Workshop for Pakistan Startup Cup 2022, organized by Business Incubation Centre (BIC) of the University of Azad Jammu and Kashmir (UAJK). The event held in collaboration with The Indus Entrepreneurs (TiE Islamabad) was aimed at guiding, train and mentoring inspiring young innovators, idea enthusiasts, and entrepreneurs for upcoming the biggest startup competition of Pakistan, the Pakistan Startup Cup 2022.

Painting and Photography Competition BY SCO

A painting and Photography competition was held at University of AJK, Muzaffarabad organized by BIC, UAJK with the collaboration of Special Communication Organization (SCO) in which school students participated in for competition and prizes were distributed among winners by the SCO.

JOBFAIR 2018

BIC at UAJK brought over 30 companies to the university campus to offer jobs and introduce their companies to students. The purpose of job fair was to bring business partners, employers and experienced professionals with their active and potential staff.

Job fair 2018 was a great success in itself. Students applied for jobs and many got jobs.

- Meezan Bank Limited, as a result, conducted an on campus recruitment drive for more than 150 students to be tested. Jasim Balouch, HR Manager from Meezan Bank conducted the recruitment drive.
- Moon Creations organized interviews for 15 students who submitted their resume's in the job fair.
- Madmob informed the job fair team that they also recruited students.

BIC UAJK is at University of Azad Jammu & Kashmir Chella Campus.

- Allied Book
- Moon Creations
- Muslim Commercial Bank

Dr. Imran Khan from IBA Karachi conducted the "Break the shackles" workshop. Students from the university participated and Dr. Imran encouraged students to come up with their ideas to form a business and held activities to physically form an entrepreneurial environment.

Entrepreneurship; a mindset game workshop 2017

The Age of the Entrepreneur is upon us and more than ever, people are striking out on their own and starting their own businesses. With today's technology and trends seeming to favor entrepreneurship it's much easier for entrepreneurs to start businesses that will succeed.

If you are hungry to make a huge impact in the world, remain on the cutting edge of what's working now in sales, marketing & automation, and operate in a way that respects and honors everyone's unique talents & gifts... this is where you belong.

78 students from the department of Arts and Design and semesters of BBA and MBA that had course of entrepreneurship, joined the workshop.

As a result, An MoU was signed between UAJK and Pakistan institute of Fashion & design (PIFD) on 16th of October, 2017.

Under the signed MoU, following activities were held for the students and faculty of UAJK;

- Art and design based entrepreneurial workshop for UAJK Students.
- Pre-Startup 2018 training and workshops for Uajk students designed by PIFD Lahore and IBA Karachi.
- Entrepreneurship workshop organized at Neelum Campus Uajk.
- Visit of Dr. Saima Latif to PIFD Lahore
- Faculty Student Exchange program
- PIFD Faculty visit as external examiner at UAJK.

#day1 #bicuajk #bicstartups #bicevents.

2nd Startup Competition 2017

60 startups were presented from UAJK Muzaffarabad and Neelum campus combined. The event was held with sponsorships from SCO, Bank Al Habib, Soya Supreme, Canon and many more significant organizations who showed confidence in BIC. The winning startup in 2017 focused on schools to improve basic knowledge about science and technology in children in their early ages.

1st Startup Competition 2016

Opening of Business Incubation Center, University of Azad Jammu & Kashmir by Honorable Vice Chancellor : Prof. Dr. Khawaja Farooq Ahmed.

Business Incubation Center organized Startup Competition 2016 on 26 Feb in University of Azad Jammu & Kashmir.

BIC invited Distinguished Guests, Speakers from All Pakistan who Participated and Addressed the Audiences about Motivation, Entrepreneurship, Career.

BiC took step to promote entrepreneurial culture in University of AJ&K

38 new startup business ideas were presented from 8 different departments within the university which was a success in itself for a first start up competition to ever be held on the campus.

Maria Bukhari and Zeeshan Anjum from biotechnology department (then) now running Abbas Labs won the competition of 2016 for making medicine for Arthritis patients. The medicine is made through herbs and had shown promising results by helping patients with pain and stopping degradation of cartilage.
